Steel Plant Specialties LLP

<https://www.metalcoatingsandlubricants.com/>

Steel Plant Specialities (SPS), established in 1985, manufactures cost saving coatings & lubricants for metal forming processes like heat treatment, hot forging, rolling, casting. ISO 9001 certified QMS are followed at **SPS**.

About Us

Steel industries throughout the world undergo enormous losses every year due to oxidation during hot working and heat treatment. In the year **1985**, **Mr. S.P. Shenoy**, a metallurgist with several years of industrial experience, set up **Steel Plant Specialities** to combat scale losses.

The range of anti-scale compounds are now popularly known as '**ESPON**'. These coatings have accelerated many metallurgical developments, improving quality and reducing costs.

Other innovative products manufactured by Steel Plant Specialities are:

- Hot Forging Die Lubricants to increase forging die life & reduce pollution.
- Fuel saving coatings for furnace refractory lining.
- Selective gas nitriding compound.
- Tapping lubricants.

Mission of the company is to offer only those products which qualitatively and quantitatively transform the global metal forming and metal working industries.

WATER MISCIBLE HOT FORGING LUBRICANTS

Water Miscible Hot Forging Lubricant
